 AVIONAUT

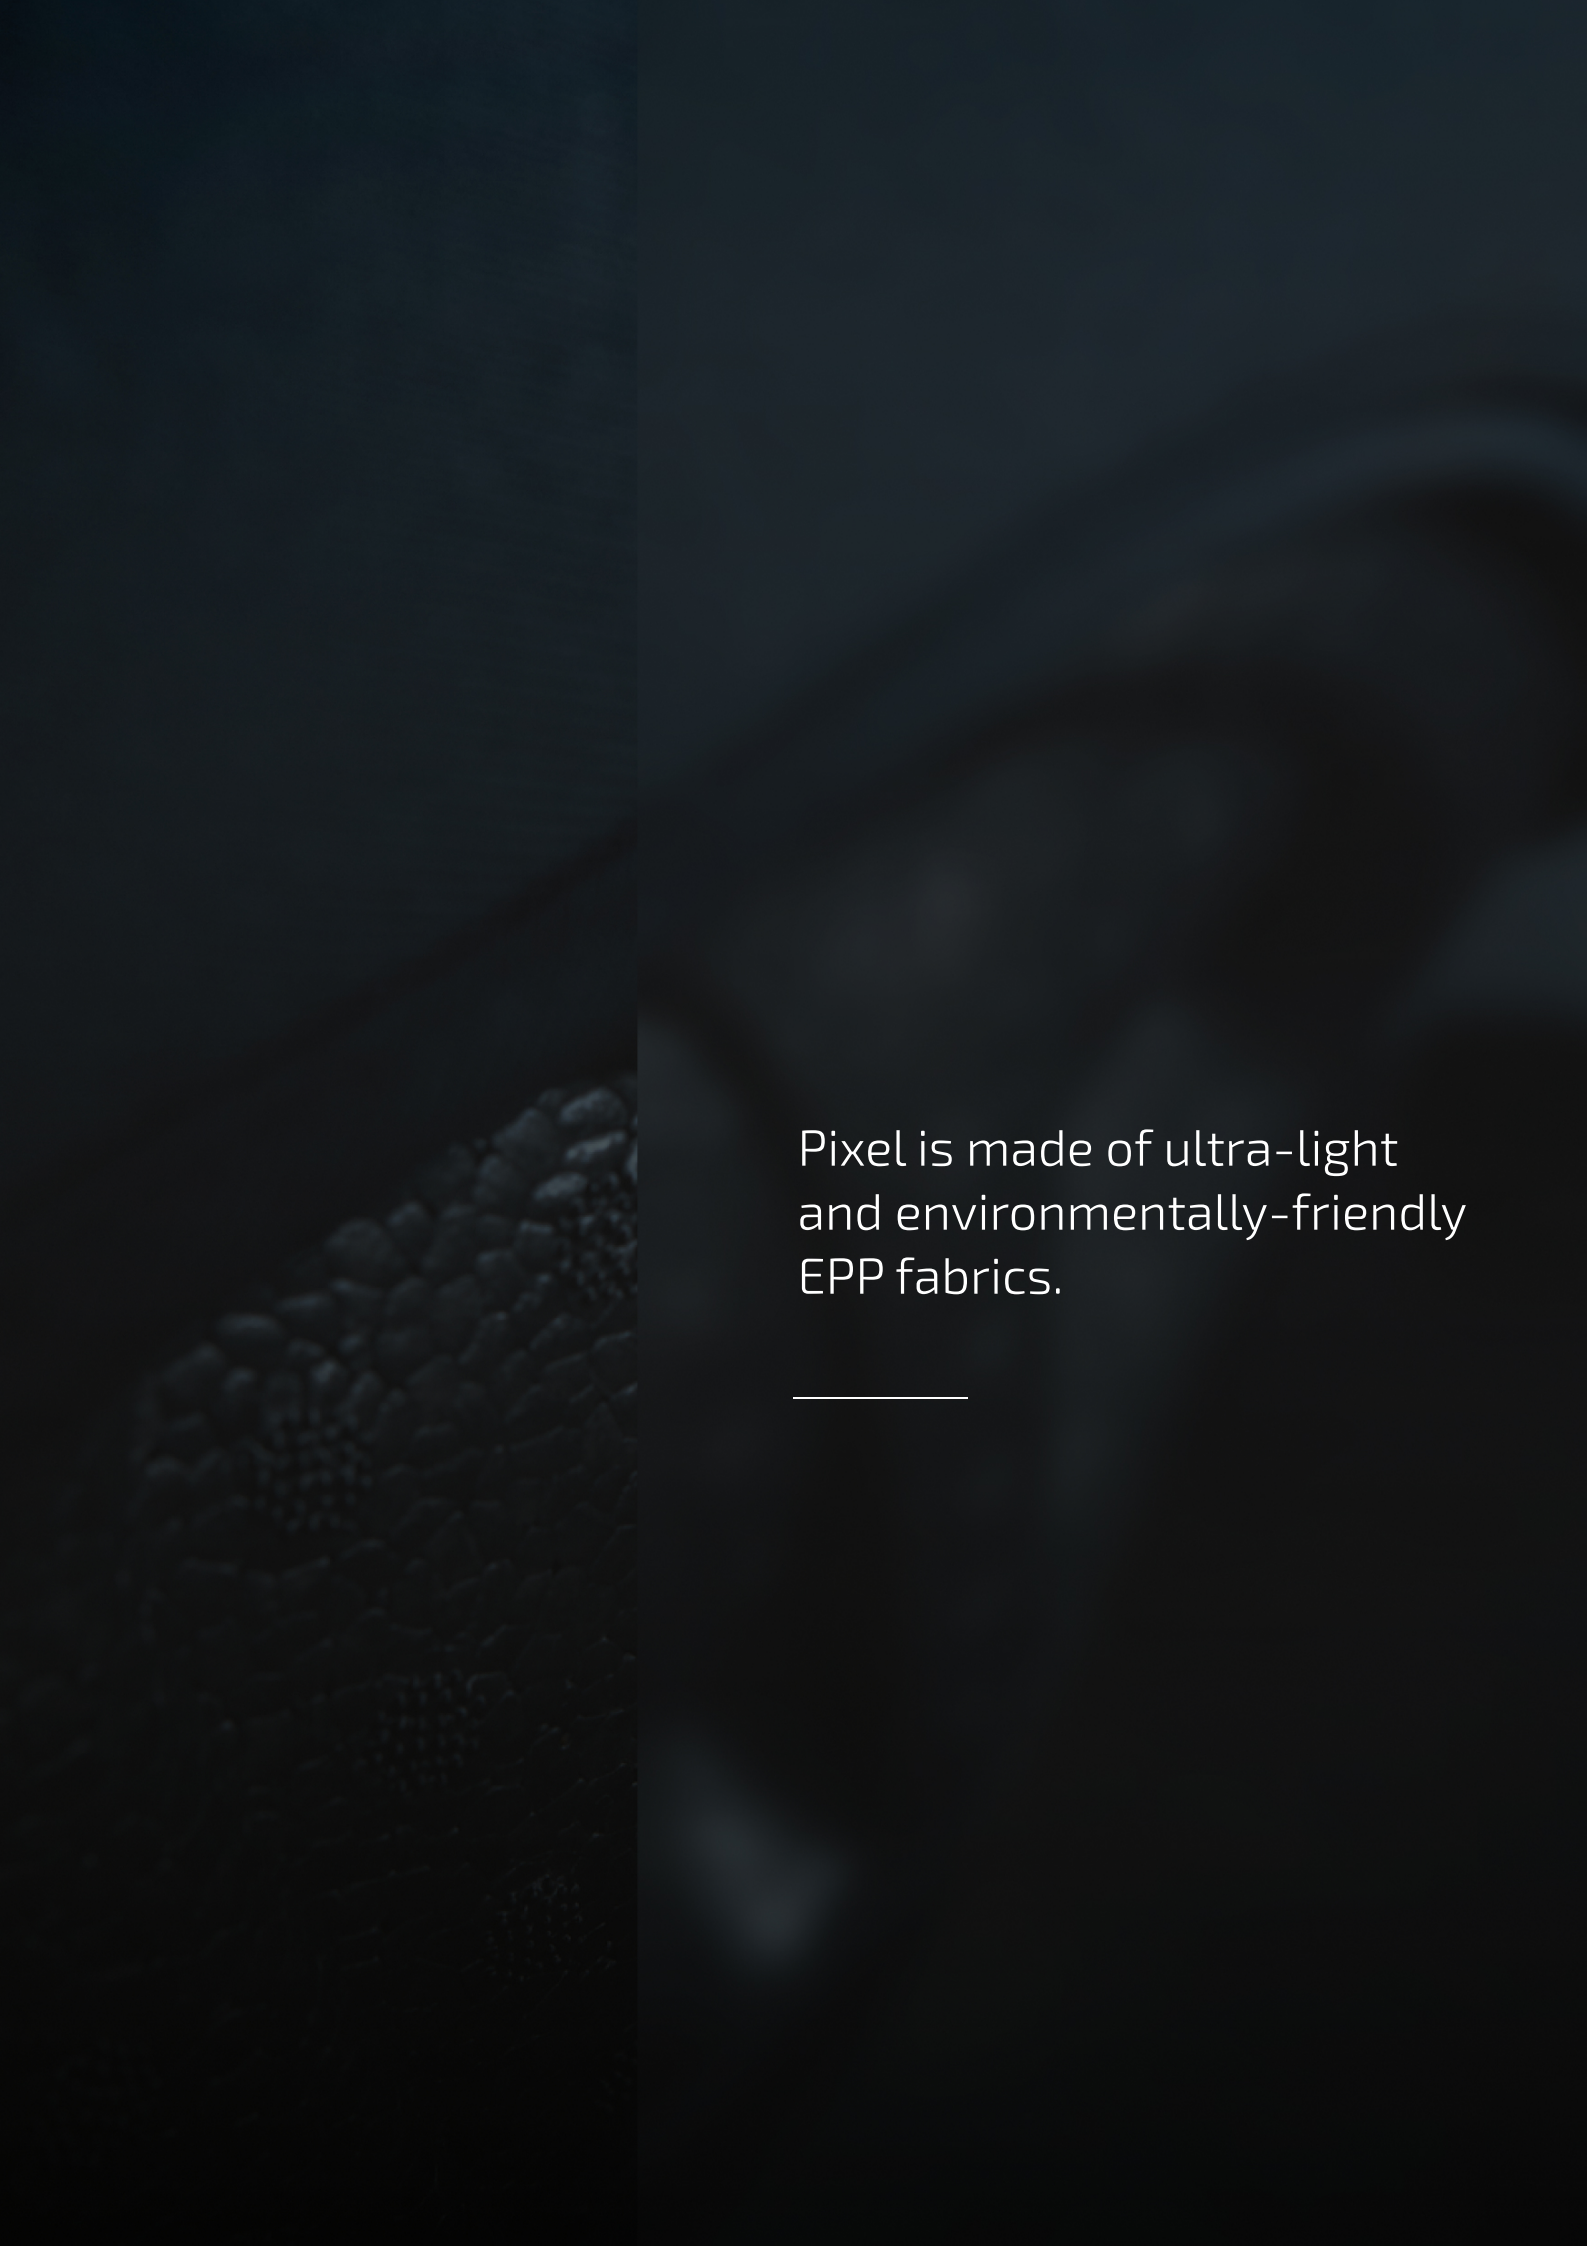

Pixel

0-13 kg

The Pixel safety seat is the lightest seat on the market for the youngest passengers. The seat is designed for children in the weight category from 0 to 13 kg and height from 45 to 86 cm.

Pixel is made of ultra-light
and environmentally-friendly
EPP fabrics.

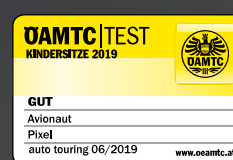

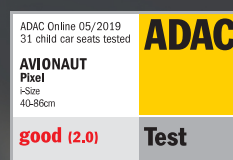

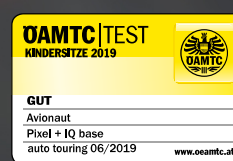

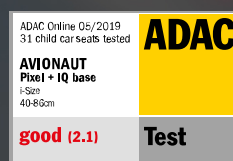

The seat insert has been designed with the support of physiotherapy experts. As a result, it meets the needs of the youngest passengers.

The seat insert has been designed with the support of physiotherapy experts. As a result, it meets the needs of the youngest passengers.

Pixel scored **4 stars in ADAC tests**. It complies with the most recent European **i-Size** safety standard. Moreover, the comfort and influence of the insert on the spine of a young passenger gained the appreciation of **AGR**, the German association for healthy backs.

The seat is installed with the use of seat belts or the Isofix IQ base.

A close-up, angled view of a dark blue car seat's side panel. The seat has a ribbed texture. The AVIONAUT logo, consisting of a stylized 'A' inside a circle followed by the word 'AVIONAUT', is embroidered in white on the fabric.

AVIONAUT

Quick installation to the
Isofix IQ base.

One base two car seats?
